# CORE DAO COMMUNITY TOKEN

WHITE PAPER

# PROBLEM STATEMENT & THE SOLUTION

## Problem Statement:

Several blockchain communities exist, by virtue of the blockchain itself, just as a solution to or up-scaling of blockchain technology, community participation, community care and growth is mostly restricted to; owing tokens and or supporting the brand, in most cases there seem to be nothing in place to support the ordinary community member to scale their own ideas, business and ensure their sustainability.

## The Solution:

COCO is here to provide a platform for community members to express, progress and grow. Without the burden of: coding, holding a big bag in order to be noticed as a valuable community member, having a large follower-ship on social media, etc

The idea is to showcase things that include (but not limited to): the value you provide in the real world, a value that helps CoreDAO scale, provides visibility to CoreDAO and ultimately a good or service that people can pay for to earn you a living. So whatever business you do, whatever skill you have, whatever merch you sell or can produce, whatever genuine informational/entertaining content you can produce and want to sell, if you think it suits the narrative and vibe, you can display it, determine the price and reach your audience.

The COCO platform provides willing community members a platform to participate in the CoreDAO ecosystem with a higher sense of commitment, contribution and self worth, where willing community members can leverage on the brand goodwill to showcase their; skills, valuable goods and services.

This can promote a sense of community, provoke the idea to build on core, expand the values of core and most importantly buy or sell

their goods and services – a symbiotic bond between community and technology without the need to be overly tech savvy.

CoreDAO wins, the average community member wins and we all grow globally.

# INTRODUCTION TO \$COCO

COCO is a derived nomenclature from – CORE Blockchain Community. The name was chosen by a group of coretoshis with legendary status in the CORE Blockchain Ecosystem.

As such, \$COCO is all about the tenets of CORE summarized as a blockchain enabling decentralized applications secured by Bitcoin, for the community to build with EVM-compatible smart contracts on a Bitcoin-powered blockchain, based on the Satoshi Plus consensus which combines the best of Bitcoin and Ethereum.

COCO as a community-centric continues to provoke the need for better solutions to currently existing community models. Just like CoreDAO whose principles are grounded in the premises of both Bitcoin and Ethereum, with power coming from embracing multiple ideas and communities. COCO is focused on proliferating the adoption of the CORE blockchain, providing a platform for coretoshis to grow and drive the global adoption of blockchain technology.

Our motto? “CORE for me, for you, for us”

\$COCO is a hyper-deflationary token built on the CORE blockchain.

# OBJECTIVES

\$COCO is not simply a token, it's a growing community coretoshis and all who enter into the vision of the CORE Blockchain, created by OG Coretoshis with the major objective of serving as foot soldiers to accelerate the growth of CORE, through our commitment, we are dedicated and poised to reward all those dedicated to building on CORE and supporting CORE, our precision by moving in the same positive direction.

- The (20) \$COCO Gang Lord NFT 30%, \*The (79) \$COCO Gang NFT 15%,
- \$COCO Stakers 10% (amount of stake to be determined by the DAO vote from time to time)
- The remaining 5% will be used to buy back and burn \$COCO periodically to reduce the already tiny supply of 2.1M \$COCO

- **Passive Income:** Again 50% profits of the marketplace is shared to all \$COCO Gang Lord NFT stakers, \$COCO Gang NFT stakers and \$COCO token stakers.

**Blockchain Education:** Our blockchain essentials course, contents on our marketplace and other crypto masterclass courses can be paid for with \$COCO

# PROJECT ROADMAP

With unwavering dedication and a deep commitment to the growth of CoreDAO, the \$COCO project offers a similar path to the innovation brought by BitCoin to the world of finance and further solidified by CORE.

The \$COCO roadmap guides us to provide a sense of community to all coretoshis, foster development and become a platform for the coretoshis excel through a structured journey, mirroring the relentless quest of Satoshi Nakamoto.

Ultimately, this roadmap provides a path for the \$COCO community to grow, innovate, and achieve excellence, embodying the same dedication and resilience that define CoreDAO, as such, the roadmap can and will be updated from time to time to meet emerging opportunities and trends, with a funding secured in the \$COCO reserve fund and profits from the partnerships we will forge as a community.
